The screenshot shows the Compose AI extension integrated into a web browser. At the top, there's a navigation bar with the Compose AI logo, a 'Watch Guide' button, and a 'Download Extension' button. Below this, a large heading reads 'Write Faster With AI, Save Time ⚡'. A descriptive text block states: 'Compose AI is a Chrome extension that cuts your writing time by 40% with AI-powered autocomplete & text generation.' To the right, there are two examples of text completion. The first example, under the heading 'With Compose', shows a message starting with 'Hey team,' followed by 'Just wanted to provide a quick update on the numbers from last quarter.' The second example, under 'Without Compose', shows the same message but with a placeholder '[]' where the AI-generated part would be. At the bottom left, it says 'Backed by Combinator'.

With Compose

Without Compose

Say goodbye to generic answers

Perplexity generates domain-specific answers by citing multiple pages from the same chosen domain.

PERPLEXITY.AI

The screenshot shows a search query "Reviews of 'The Last of Us'" in the search bar. Below it, there are three tabs: "Internet", "This Domain" (which is selected), and "This Page". The main content area is titled "PERPLEXITY" and displays a summary: "Reviews of 'The Last of Us' are generally positive. The game is often described as a masterpiece^[1] with a great story^[2]. The PS5 remake has been praised for its graphics and gameplay improvements^[3]. The HBO adaptation has also received positive reviews, with some critics calling it a faithful adaptation of the game^{[3][4]}". Below this summary, there is a section titled "4 SOURCES" with four numbered items, each with a small preview and a link icon. At the bottom, there is a "RELATED" section with a few more items.

4. Perplexity

Simplify technical language

Highlight complex paragraphs. SciSpace Copilot will give you easy-to-understand explanations.

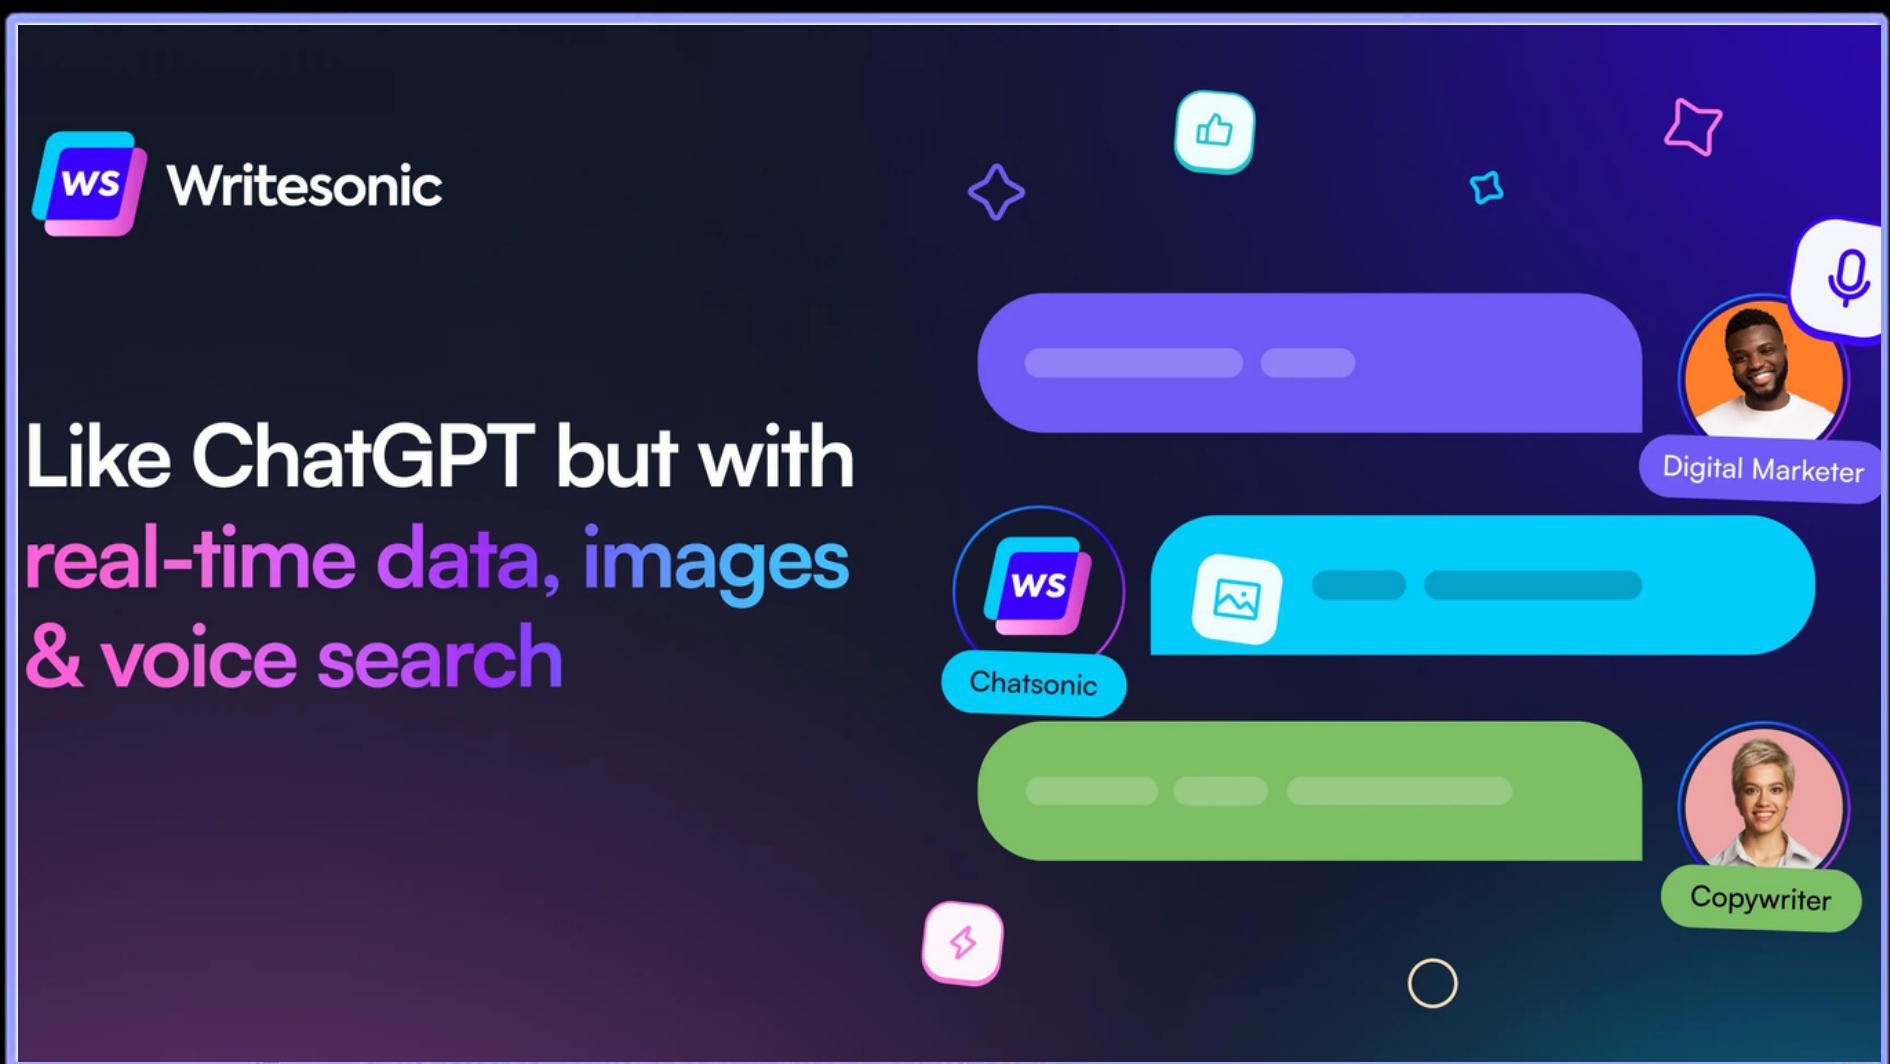

The screenshot shows a 'nature' journal article titled 'Diagnosing destabilization risk in global land carbon sinks'. The article is by Maxon Fernández-Martínez, József Pátrics, Frédéric Chavelet, Philippe Ciais, Michael Obersteiner, Christian Röderbeck, José Serrano, Sera Vicca, Huai-Yong Shih, Steven Strub, Pierre Friedlingstein, Yaeli K. Arora, Daniel S. Golosinski, Janusz Janiak, Barbara L. Lamontagne, Patrick C. McGuire & Ian A. James. It was published on 22 February 2023. The abstract states: 'Global net land carbon uptake or net biome production (NBP) has increased during recent decades, but the underlying causes remain poorly understood.' The SciSpace Copilot interface is overlaid on the right side of the page.

The SciSpace Copilot interface includes a sidebar with options: 'Copilot', 'en', and a dropdown menu showing 'Journal Article found'. Below this are buttons for 'Explain Abstract', 'Summarise', 'Literature Survey', and 'generate TLDR'. A 'See more' link is also present. A yellow box highlights the text 'or highlight text to get explanation'. At the bottom is a search bar labeled 'Ask a question' with a magnifying glass icon and a 'Copilot' button.
